Public Affairs Office

The Public Affairs Office publishes the Starfleet Command hardcopy newsletter three (3) times per year.

For more information or to submit articles, email the Public Affairs Office at cpa@sfcq1.com

Greetings Fleet,

I hope everyone had an enjoyable time throughout the holidays.

First, I would like to state that I take this position, along with its duties and responsibilities, very seriously. If anyone has a concern, do not hesitate to bring it to me. If I cannot answer a question or resolve a situation, I will find someone who can. My door will always be open.

I would like to thank the following people for helping me establish my new board. They have years of dedicated service and have proven to be invaluable assets to SFC in the past. We have big plans for Starfleet Command and I see a very bright future indeed.

First, ADM Mark Williams as Deputy Fleet Commander, is from Indiana. Second, ADM Vince Williams (no relation to Mark) as Chief of Membership Services, is from the Illinois/Missouri area. Third, ADM Tony Scott as Chief of Financial Management, is from Kentucky. Fourth, VADM Rick Pinsky as Commandant of Starfleet Academy, is from Ohio.

The first few months will be a time of transition as I step into the big chair. There are still a few Admiralty Board positions yet to fill and I urge anyone with interest to download the latest AFEDs from www.starfleet-command.com and review the qualifications and duties. The positions are: Chief of Command Staff, Chief of Information Technologies, and Chief of Public Affairs. When applying for a position I urge you to list not only your qualifications, but also explain how you expect to perform your duties in a timely manner. When applying, please use one of the following email addresses:

fc@starfleet-command.com
sfcfcdr@gmail.com

Hello Fleet, I wanted to take this opportunity to convey my appreciation for the trust that Fleet Admiral Jackson, and the rest of fleet has placed in me. I assure you, I will do my best to make sure that your trust is rewarded.

Back in 1992, four friends went to Indianapolis to see Jimmy Doohan. On the way out, there was an application for Starfleet Command on a small table. When I paid my dues, I would never have guessed that some 19 years later I would still be a member, much less the Deputy Fleet Commander. Of those 3 other people, Larry passed away and Greg left the group. The last, RADM Gary Bartle, my former CO, is still active in Starfleet Command.

During my many years in Fleet, I have served on, in my humble opinion, two great ships, the USS Defiant and the USS Endeavour. I was the Chief of Security and First Officer on both. Along the way, I also served as the acting CO of the Defiant, Commanding Officer of Starbase 06, and as the Chief of Information Technologies on the Admiralty Board. I started with the Endeavour as a Marine, but was asked to move to Security and then to Operations and lastly to First Officer. I was, and still am, not one to worry about rank or position, but rather, where I can help the most. In fact, I've made the rank of Captain twice!

For those that do not know what the basic duties of the Deputy Fleet Commander are, let me give you an a few basic examples. The DFC is the second most powerful position on the Admiralty Board and is in charge of the Starbases. He is there to help the Starbases, and the ships under them, in any way he can. One way he does this is to take the Spar II from the Starbase Commanders (ship commanding officers fill out the Spar I) and compile them all into one report.

In closing, I hope that during my time as DFC I am able to meet as many members of the fleet as possible. To me, Starfleet Command has always been about the friendships that I have made along the way. I know without a doubt, that is why I am still here as a member and continue to serve.

Deputy Fleet Commander, ADM Mark Williams

Get to know your Admiralty Board

We ask Fleet Commander Jackson 4 random questions

How/where, did you find out about Starfleet Command?

I heard about Starfleet Command from Howard and Bonita Robinson. At the premier of ST:X they had a recruiting table set up in the theater. I read the application and joined immediately.

What do you like most about Fandom?

The thing I like about fandom, besides the family feeling and hanging with like-minded people, is the fact that I have never met a single Star Trek fan who does not help his fellow man through charities, fund raisers or other means at their disposal. Other fan clubs might be into role playing or some kind of game playing, but Trek fans are the greatest because they take the philosophy of Star Trek to heart and do more than live the fantasy.

What you consider your best quality you bring to SFC?

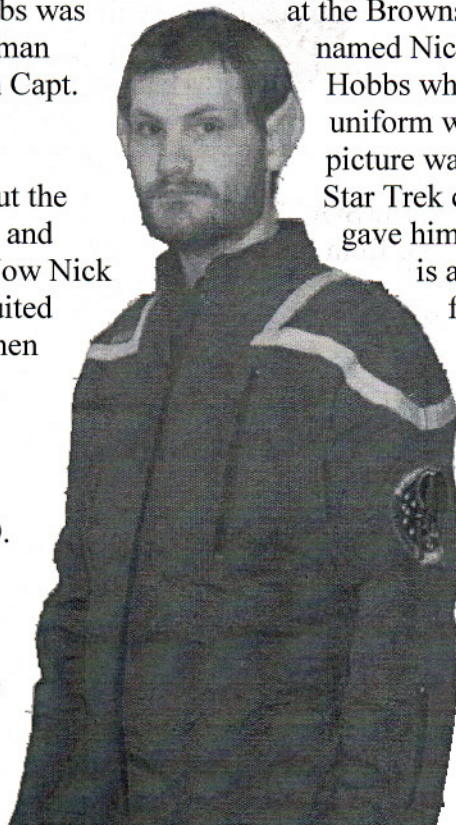

Everyone is made up of numerous qualities; any of which cannot be discounted without discounting the person. But if I had to choose my *best* quality, I would have to say it is caring. I strongly care about people, I strongly care about the club, and I strongly care about the future of mankind.

What do you consider your favorite Trek series or character?

Before I state my favorite series, I must first qualify my statement. My favorite series is not what I would necessarily think is the best series. My favorite series is the original series because I grew up with it and it had the strongest impact on my life. I think the best series was Next Gen because it used its seven-year run to hit on many important topics that concerned society as a whole.

P.O. Stephen Hawking re-commissioned as a Light Cruiser/NX class starship the U.S.S. Telek NCC- 46112

On 21, Nov. 2009 the P.O. Stephen Hawking has been commissioned. The crew complement consisted of three, Capt. Shelby T. Hobbs the CO, his father the FO/Chief Engineer and his mother the CMO. In the spring of 2010, Capt. Hobbs was at the Brownsburg Wal-Mart, when a young man named Nick Manns asked to get a picture with Capt. Hobbs who was in a Monster Maroon Starfleet uniform with full Vulcan makeup. After the picture was taken Capt. Hobbs told him about the Star Trek club called Starfleet Command and gave him an application to join SFC. Now Nick is an Ens and a CRO. He has since recruited five new members to the P.O. Stephen Hawking makes a crew, complement of nine members.

On 15, Jan. 2011 the P.O. Stephen Hawking was commissioned as a Light Cruiser/NX class starship U.S.S. Telek NCC-46112. Stephen Hawking has supported such charities collecting cell phones Sheltering Wings for

have turned into emergency 911 calling phones. The P.O. Stephen Hawking had donated \$80.00 towards the U.S.S. Gorkon's Borg Cube food drive, and the P.O. Stephen Hawking are a yearly supporters of DFC ADM Mark Williams' Autism charity, which is personal for Capt. Hobbs, since his nephew is autistic.

The U.S.S. just released wide newsletter crew only, the "U.S.S.

Telek has a new ship electronic for the ship and we call it Telek e-

Newsletter". The Star Times will only be published once a month, and can be viewed from the website at www.usstelek.com/documents.html.

The U.S.S. Telek is a light cruiser/NX class starship and it has a new logo. The new logo is based on the NX-02 Columbia patch, which was altered for the U.S.S. Telek, along with a few added extras.

The U.S.S. Telek has ship level awards that are separate from SFC. The reason the crew received these awards was for their hard work in 2010 which made the U.S.S. Telek 2010 Small Ship (Starbase) of the Year 1st place recipients, the 2010 Website of the Year 1st place recipients, the 2010 Newsletter of the Year 2nd place recipients, and the 2010 Recruiter ship of the Year 3rd place recipients. The U.S.S. Telek has a new website address, and that is www.usstelek.com.

The U.S.S. Telek is close friends with the U.S.S. Brightstar and they have an annual cookout.

The USS Gorkon

By: LTCDR Clara Trout Commanding

The USS Gorkon is a unique ship due to the fact that we have Klingons serving on our ship. Many of our crew has dual memberships in both Star Fleet Command (SFC) and International Klingon Expeditionary Forces (IKEF). The USS Gorkon is based out of Ingalls, Indiana which is a small town located between Pendleton & Fortville.

Captain Detamore co-hosts the weekly Lou Trek Show, an IPOD radio show about different aspects of Star Trek. The show has featured many well-known stars from Star Trek. The Lou Trek Show and some of the crew went on the road to Trek Fest in Iowa City, IA. At the Fest we were all part of the Guinness World Record attempt for the most Uniformed Star Trek Fans at a Star Trek event planned by the USS Davenport. We met many amazing people at the fest and have become good friends with them. We had an awesome time there and would recommend it to others.

Over the past summer, our crew's mission was to find good deals on winter coats. We collected all through the summer and fall and were able to donate 36 winter coats to Bob Gregory's coats for Kids at the end of September. We had a lot of fun gathering these coats and knew they would be going to good homes.

In October, Captain Detamore entered a Chili Cook-Off. He prepared a "Klingon Chili" and dressed in full Klingon regalia to serve the chili. He promoted the ship, Starfleet Command, IKEF and Star Base Indy by passing out information regarding the organizations and events. He also placed 4th in the event, which was very competitive!

Shortly after the Chili Cook-Off, we began working on Star Base Indy security planning. LTCDR Robert Jackson, a Klingon, and member of the USS Gorkon were head of security at the 2010 Star Base Indy. Ninety percent of the security team was the crew of the Gorkon. We heard very positive feedback from the two professional security personnel (IKEF Klingon's) that came to assist with security from Ohio as well as LTCDR Robert Jackson, members of the Star Base Indy Staff and many attendees/vendors of the convention.

Our crew also participated in the yearly Star Wars vs. Star Trek Bowling event that our SB6 Commander Barclay hosts each year. Star Trek almost beat the Star Wars folks! The event also promoted the "Toys for Tots" campaign and the Crew of the Gorkon donated \$60.00 to this charity.

The Gorkon crew worked on the Borg Cube framing and "assimilating" cans of food for the event, which culminated at Star Base Indy 2010. Gleaner's Food bank of Indiana received 904 cans of food from this drive. We filled their barrels so full that they had to bring in special equipment in order to lift the barrels into the truck! This event was very successful and I again issued this challenge to not only all the ships in SB6 but also every ship in Star Fleet. I also have challenged all of the Klingon ships in IKEF to meet or beat the Gorkon in canned goods in this year's Food Drive Challenge. The Gorkon raised 622 food items of the 904 last year. My goal this year is for our ship to exceed that amount and have at least 1,000 items from our ship alone. Look for further information regarding this event on the Listserv or the USS Gorkon website located at www.ussgorkon.com.

**2010 Captain James Kirk -218th Birthday Celebration, in Riverside, IA
By: FCAPT James Olson, USS Lobo Ncc-511,Moline, IL.**

Over 65 people attended the 2010 Captain James Kirk -218th Birthday Celebration, in Riverside, IA, the "Future Birthplace of Capt. Kirk." This celebration was held on March 20 at Murphy's Bar and Grill in Riverside, aka "The Future Riverside Shipyard Bar." The town made famous in Star Trek 11 in 2009, honored the fictional Starfleet Captain with the help of the Riverside Area Community Club, & Toastmaster Capt. JM Olson, of the USS Lobo NCC-511. Shown are a portion of the many residents and Trekkers who partied down like it was 2233. In middle distance is

the crew of Starfleet Command's USS Davenport, Capt. Fred Monfeili. Captain JM Olson of the USS Lobo was honored to be Toastmaster for the event, and his crew

helped to enjoy the evening. Photo Courtesy USS Lobo Recruit Elischewah Basting.
